

City of Kinston
Large General Service
Code: E15

Availability

This Schedule is available for electric service (1) used by a commercial or industrial business and (2) for any other use not specifically excluded by the provisions hereof when the City does not own equipment, other than meters and metering equipment, on Customer's side of the point of delivery and when Customer contracts for not less than 1,000 kW.

This Schedule is not available (1) for breakdown, standby, or supplementary service unless used in conjunction with the applicable standby or generation service rider for a continuous period of not less than one year, (2) for resale service, or (3) for short term or temporary service.

Generation may not be interconnected to the utility system or operated by the Customer with service provided under this Schedule without prior written approval from the City. The Customer must install equipment acceptable to the City to protect personnel performing maintenance or repairs and prevent damage to electric system facilities. The Customer is responsible for any injury or damage caused by the operation of such generation. The Customer's electric service is subject to immediate suspension without notice until adequate protection equipment is installed and approval for generation operation is obtained from the City.

Applicability

This Schedule is applicable to all electric service of the same available type supplied to Customer's premises at one point of delivery through one kilowatthour meter.

Type of Service

The types of service to which this Schedule is applicable are alternating current, 60 hertz, three phase 3 or 4 wires, at the City's standard voltages or 480 volts or higher. When Customer desires two or more types of service, which types can be supplied from a three phase 4 wire type, without voltage transformation, only the one of these two types necessary for Customer's requirements will be supplied.

Contract Demand

The Contract Demand shall be the kW of demand specified in the Service Agreement.

Monthly Rate

\$817.81 Basic Customer Charge
\$15,944.06 for the first 1,000 kW of billing demand
\$15.96 per kW for all additional kW of billing demand
5.416 cents per kWh for all kWh

Billing Demand

The Billing Demand shall be the maximum kW registered or computed, by or from City's metering facilities, during a fifteen-minute interval within the current billing month. However, the billing demand shall not be less than the greater of (1) 80 percent of the maximum monthly fifteen-minute demand during the billing months of July through October of the preceding eleven billing months, or (2) 60% of the maximum monthly 15-minute demand during the billing months of November through June of the preceding eleven billing months, or (3) 75% of the Contract Demand until such time as the Billing Demand first equals or exceeds the effective contract Demand, or (4) 1,000 kW.

Payments

Bills are due when rendered and are payable within 20 days from the date of the bill. If any bill is not so paid, the City has the right to suspend service in accordance with its Service Regulations. In addition, any bill not paid on or before the expiration of 20 days from the date of the bill is subject to an additional charge of 1.5% with a minimum of \$5.00 to the balance in arrears.

Contract Period

The Contract Period shall not be less than one year.

Sales Tax

To the above charges will be added any applicable North Carolina Sales Tax.

Effective Date

Effective for billing rendered on or after February 1, 2006.
