

City Of Kinston
Rental Lighting Service
Code: AL

Availability

This Schedule is available for lighting service furnished from City-owned lighting facilities for outdoor areas other than dedicated public streets and highways. Service shall be provided with mercury vapor or sodium vapor lamps installed on brackets extending four (4) feet or less from a City-owned pole on which overhead secondary voltage exists, or to which such voltage can be extended without additional transformer installation.

Service supplied by the City will include furnishing and installing the lighting units requested by Customer in accordance with the City's service regulations. Such facilities, with automatic control, will be owned, maintained, and operated by the City. The City will furnish the electricity required for the illumination of the lamps from dusk to dawn.

The City will perform any repairs needed to restore illumination subject to notification by the Customer that a lamp is not burning. Such repairs will be made during regular working hours.

Monthly Rates

The following monthly charges for each lighting unit are applicable for service from existing secondary overhead facilities when no installation of underground service, separate pole, decorative equipment, extended bracket, transformer, or other special equipment is required:
